

STATE OPIOID RESPONSE GRANT

GPRA Health Study

Thank you for participating in the SOR
GPRA Health Study!

We will be contacting you soon!

The **Evaluation Center** at the University of Colorado Denver will call you in about 2-3 months to introduce ourselves and to make sure we have your correct contact information. We will call you again in about 5 months to complete an interview.

If you choose to participate in the interview, we will send you a **\$30 gift card** to thank you for your time.

We greatly appreciate you taking the time to participate in the interview! The experiences that you share with us will be used to help improve treatment for future clients across the state.

Keep in mind, the information that you provide is completely confidential.

The interview will:

- Include the exact same questions that you completed during intake;
- Be completed entirely over the phone;
- Take 20-25 minutes; and
- Be scheduled around your availability.

You may schedule your interview in advance.

If you would like to schedule your interview visit:

www.calendly.com/healthstudyscheduler/follow-up-interview

If you have questions, contact us at:

720-476-6248

HealthStudyScheduler@gmail.com

Se habla Español.

Otherwise, please expect to hear from us over the next few months.

Visit our website for more information:

<https://www.sorcolorado.org/gpra-clients>

You may verbally withdraw your consent to participating in the GPRC Health Study at any point. Your participation will in no way effect your access to or quality of treatment.

As a federal requirement of the State Opioid Response Grant, treatment clinics must collect and report client health data to fulfill the Government Performance and Results Modernization Act of 2010 (GPRC). This act requires Substance Abuse and Mental Health Service Administration (SAMHSA) grantees to survey clients at intake, follow-up, and at discharge of treatment. The data collected during this health study can lead to improved policy, enhanced services, and better outcomes for those receiving services in the future.
